The Smarter Choice

With unmatched quality the best coverage in the aftermarket, Quality Built is the brand technicians trust when it comes to replacement alternators.

Complete

Quality Built Alternators are installation-ready with everything included in the box for a complete repair, ensuring full restoration and safe vehicle operation.

Perfection

Quality Built Alternators are direct OE replacement parts engineered and manufactured to meet or exceed factory specifications for performance and durability.

Experience

Rigorous three-phase testing, including 100% End-of-Line verification using proprietary, computer-controlled testers, ensure worry-free performance.

Support

MPA's ASE-certified Part Smart™ technicians are ready to help get you back on the road with answers for any product, installation, or diagnostic questions.

1. Pulley

Clutch and decoupler designs are remanufactured and set to OE specification for like-new operation.

2. Bearings

100% new premium, sealed bearings increase durability and service life.

3. Rotor

Multi-phase tested and double coated for maximum corrosion protection.

4. Stator

Stators are inspected and tested to meet or exceed OE output specifications.

5. Slip Ring

Precision polishing provides consistent voltage output and reduced wear on brushes.

6. Brushes

100% new, brushes for optimal conductivity and reduced contact resistance.

7. Voltage Regulator

Variable load testing ensures correct voltage delivery at all RPM's.

8. Rectifier

100% new, press fit, high capacity diodes maximize current output flow.

Product Detail

Quality-Built new and remanufactured alternators are assembled from premium materials and 100% end-of-line certified to meet or exceed OE specifications for performance and reliability.
